

Install sample data

Hits: 16940

Q. Can I install sample data after I have installed Joomla ?

A. Yes.

Solution:

- Unzip the 1.5.17 Full Package on your PC
- Browse to the joomla.sql file
(Joomla_x.xx/installation/sql/mysql/**sample_data.sql**)
- Open **sample_data.sql**
- Search #__ replace with **jos_** (or your table prefix)
N.B. #__ is two underscores.
- Save in plain text format
- Open your Joomla's Database with phpMyAdmin
- Import your edited sample_data.sql
